FEATURES

Acerbis Flux Air Vest is a body-armour designed for all offroad but also adventure-touring practices. Comfort, practicality, protection: these are the main strengths of a product that will guarantee you maximum freedom of movement, reference ventilation and excellent shock absorption at the most exposed points: chest, back. Flux Air Vest, which is certified EN 17092-6:2020 C, offers a structure made of high breathability/elasticity mesh fabric that accommodates D30 protectors able to remain soft and comfortable in common use and to harden, protecting the body, in case of impact. Chest protection is level 1 while back protection is level 2. Flux Air Vest is the perfect protective body-armour for motocross, enduro, adventuring, touring but also for MTB thanks to its great lightness and freshness. This body-armour signed Acerbis is worn with the utmost ease thanks to the ergonomic study of the technicians and closes with a practical SBS side zipper that runs along the entire product. The perfect fit is achieved thanks to the adjustment elastics that connect the back to the chest protector. The D30 protectors are obviously removable so the product is easily washable. Are you ready to discover Flux Air Vest? You'll forget you're wearing a protective vest. You'll only think about riding and having fun.

ACERBIS CHAIN GUIDE FOR TRIUMPH 0026690

0026690.090

FEATURES

The Acerbis chain guide provides impact resistance thanks to its high-strength plastic material. It is made of two pieces: the body and the slide. The slide is replaceable when worn. The 2-piece construction also means the chain does not have to be disassembled when mounting the guide or replacing the slide.

The controlled-elasticity construction of the guide absorbs shock and minimizes damage to the chain and sprocket; it also reduces oscillatory shaking of the chain. It is easily applied on the original housings on the swingarm. Mounting kit included.
